

# Help Bring Real-World Careers Into Our School

## Community & Career Partnership Interest Form

This form helps us understand which community partners might be willing to support students in small or meaningful ways now or in the future. Community partners play a vital role in helping students see what careers truly look like beyond the classroom, and even a short interaction—such as a brief conversation, guest visit, or virtual experience—can have a lasting impact on a student’s confidence and career awareness. There is no obligation to participate, and completing this form does not commit you to anything. Opportunities are designed to be flexible, supervised by school staff, and respectful of your time and comfort level. We truly appreciate you taking a moment to consider supporting our students and helping them see what’s possible for their future.

## Thank You

Thank you for your interest in supporting students through Career-Based Intervention. Community partners like you help students see what's possible, build confidence, and make informed decisions about their future. A member of our team may reach out if there's a potential opportunity — with no pressure or obligation.
