

WHAT IS AN INDUSTRY CREDENTIAL?

- ✓ An **industry credential** is a certification or qualification awarded to individuals who meet specific standards of proficiency in a particular field or profession.
- ✓ It is typically issued by a recognized industry organization, association, or regulatory body and demonstrates verified knowledge, skills, or competencies required for a specific job or industry.
- ✓ **Credentials** often involve passing exams, completing training programs, or meeting experience requirements and are applicable across various fields such as healthcare, IT, manufacturing, finance, and more.

MANUFACTURING WORKERS WHO EARN AN INDUSTRY CREDENTIAL ON AVERAGE EARN \$2,000 MORE ANNUALLY
